Step 1: click on “about me” tab

Step 2: click on “career interest profiler”
Career Interest Profiler

Introduction

You are about to begin the Career Interest Profiler, a tool that can help you discover the types of work activities and careers that match your interests. The interest profiler has 180 questions about work activities that people do at their jobs.

When choosing your answers, think about whether you would like or dislike doing a particular work activity if you had a chance to do it. Try not to think about whether you have enough education or training to perform the activity.

This is not a test. There are no right or wrong answers. The more accurately you answer each question, though, the better your results will be. If you need to leave the profiler in the middle and return later, remember to complete all the answers on the page you are on and click the “Save and Continue” button. When you return to this section, you will pick up where you left off.

When you are ready to begin, please click the “Start Profiler” button below.
Step 4: View Matching Occupation List

Here are your results:

- Realistic: 5
- Investigative: 2
- Artistic: 8
- Social: 11
- Enterprising: 1
- Conventional: 0

Your strongest interests are in green. You can think about your interests as work activities you like to do. Your interests can help you find occupations you might like to explore. The more an occupation meets your interests, the more likely it is to be satisfying and rewarding to you.

Are you ready to explore the occupations that match your interests? Just click the button below.

Definitions

Realistic: Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork.
